

Description

Newman offers a blend of mottled grey and beige tones with underlying veining, perfect for indoor and outdoor use. The density of Newman Marble, coupled with its beige/gold toned veining, makes it adaptable for complementing elements like exposed timber, natural stone cladding, and soft landscaping. This versatility allows for creative freedom in design, making it a popular choice among customers, architects, and designers. It's an excellent option for those seeking a high-quality material that not only enhances the aesthetics of a space but also withstands the test of time, both in terms of durability and style.

At Aussietecture, quality control isn't an afterthought—it's built into every step of the process. We don't wait until the stone is cut to inspect it; instead, we start from the very beginning of production. By applying rigorous, proactive quality standards at every stage, we ensure that excellence is not just achieved—it's guaranteed. Every cut, every detail, every step is monitored with 110% dedication to quality.

The advantages of most Aqua Mix® Stone, Tile & Grout Sealers are: They're safe water-based products that are utilizing the latest in sealer technology. Most emit low or no VOCs (Volatile Organic Compounds), and prevent a variety of stains – both oil and water-based. Allow MVT (Moisture Vapour Transmission)
